# STOP BULLYING

Bullying is a serious problem that can have a long-term impact on a person's mental and physical health. It is important to recognize the signs and symptoms of bullying and to take action to stop it. Bullying can be prevented by creating a safe and supportive environment where everyone is treated with respect and dignity.

## BULLYING

Bullying is the repeated use of force or intimidation to cause harm or distress to another person. It can be physical, verbal, or social. Bullying is a serious problem that can have a long-term impact on a person's mental and physical health. It is important to recognize the signs and symptoms of bullying and to take action to stop it.

- Bullying is repeated and intentional.
- Bullying causes harm or distress.
- Bullying is a power imbalance.

**BULLYING Prevention**

- Create a safe and supportive environment.
- Encourage students to speak up.
- Teach students how to stand up for themselves.
